Music ITE Resources: All Resources

List all resources by: [Date Added](#) | [A to Z](#)

Using ICT in Primary Music Education

This module provides an introduction to using sound recording and manipulation software in the primary school

[..Read More](#)

Teaching Music to Muslim Pupils: Issues and Considerations for Primary and Secondary Teachers / Trainees

Background Information, Ideas to share with trainees and for teachers.

[..Read More](#)

Informal Learning/Pedagogy and Student Teachers

By drawing substantially on the work of a group of twenty secondary postgraduate music student-teachers during their training year, some of the complexities associated with the idea of informal learning are explored.

[..Read More](#)

Informal Pedagogies

This resource is based on the initial stage of the Musical Futures Informal learning programme developed by Professor Lucy Green.

[..Read More](#)

Learning how to Teach Singing in the Primary School

The intention of this module is to balance skill development in singing with pedagogical awareness and critical understanding.

[..Read More](#)

Learning to Teach the New National Curriculum for Music

The key changes in the New National Curriculum for Music and the implications for those engaged in initial teacher education.

[..Read More](#)

Assessment for Learning and Teacher Education

For trainee music teachers, AfL is a key feature of the way in which learning can be taken forwards, and should form a normal part of their everyday work in the classroom.
